Description Once we support telnet option processing, it would be good to send a serial break sequence when a telnet send break is recieved	
Related issues:	
Blocked by Bug #17: No telnet option processing is done	Closed 2008-04-17
Blocked by Bug #16: Extra line is seen after every enter	Closed 2008-04-17 2008-04-30

Associated revisions

Revision 997564ce - 2008-04-22 10:31 - Hamish Coleman

Implement send break function (closes #23)

History

#1 - 2008-04-20 23:31 - Hamish

- % Done changed from 0 to 30

the telnet option processing framework now exists, but it is not hooked up to anything useful, nor it it reachable from the serial-data-pump mode

#2 - 2008-04-20 23:47 - Hamish

- Target version set to 0.3

#3 - 2008-04-21 19:18 - Hamish

- % Done changed from 30 to 50

#4 - 2008-04-22 10:34 - Hamish

- Status changed from New to Closed

- % Done changed from 50 to 100
