

wconsd - Feature #27

redesign internal command processor to be extensible

2008-04-21 00:03 - Hamish

Status: New	Start date: 2008-04-21
Priority: Normal	Due date:
Assignee:	% Done: 0%
Category:	Estimated time: 0.00 hour
Target version: 0.3	
Description Move from a big if/strcmp/else list to a register()/find()/exec() interface. This would allow automatically generated help screens (including context sensitive help), command abbreviations and tab completions
